SERONERA

The “Ole Serai Luxury Camp - Seronera” is located 14km from Seronera HQ / Airstrip, and lies right in the heart of central Serengeti. It is located on a spectacular and secluded location perched atop the slopes of Makoma hills overlooking the magnificent Makoma Plains (which is famous for its large numbers of resident Cheetas) and the Thatch Kopjes (famous for its large Makoma prides of resident Lions). The location also boasts all-year- round game and a large population of wildcats - who are drawn to the huge concentration of prey in and around the area.

Another unique advantage this site offers is the expansive and unobstructed views over the vast grassy Makoma plains - from where you are sure to see a wide range of wildlife passing through the open grasslands all year round. Even more spectacular is the view during the famous annual migration - where thousands of wildebeest can be seen passing through the Serengeti plains right from the comfort of your plush rooms or the guest areas. The guest rooms and facilities have also been thoughtfully and sparingly placed to take full advantage of the views and scenery.

The “Ole Serai Luxury Camp - Seronera” consists of 9 Luxury Guest Tents set out and designed with maximum guest privacy in mind and all the facilities expected out of a 5* luxury camp with it's unique tent designs which offer 180° degree clear views from the rooms. The Camps will offer the same quality service standards, facilities as well as features experienced in our other “Ole Serai Luxury Camp” branded Campsites. The evenings can be enjoyed sitting around the fireplace while exchanging the day's adventures with other guests sipping cocktails or having meals at our Maasai Boma, where the background music is nature's unique sounds mostly dominated by the lions roaring as if in celebration to welcome you.

The Camp is conveniently located approximately 26 minutes drive from the Seronera Airstrip and all the essential roads/routes for Game Drives in and around Makoma Hills are easily accessible from the Campsite - making it very suitable and easy for viewing an extensive array of Wildlife and nearby attractions the Serengeti has to offer. Wellworth Hospitality continues to make huge strides in the Tanzanian Hospitality sector with the launch of its various properties that aim to redefine the Luxury experience in Tanzania. We believe in taking up innovative challenges to set new standards and trends in Luxury Camping. Greater emphasis is given to green initiatives whilst simultaneously offering 5* facilities including: fine dining experiences, luxurious and comfortable beddings and furnishings, running hot/cold water, free wifi, 24 hour solar power though out the camp, room safes, radio calls...etc.All these as standard options.
